¹ Windows Server and appropriate client access licenses are required for multiuser environments using NComputing products. Client operating systems such as Windows XP, Windows Vista and Windows 7 are appropriate for single user applications such as 1:1 VDI, display systems and remote access. Only Professional, Business, Enterprise and Ultimate versions of client OSes are supported -- Home versions are NOT supported. Additional information on licensing is available at www.ncomputing.com/mslicensing including frequently asked questions.

² Includes Windows Server 2008 R2 SP1 Foundation for L-series and M300

³ Only supports Server 2008 R2 (non-SP1) and MultiPoint Server 2010 (non-SP1), (for MultiPoint Server 2011, driver option is available - please see Download Center)

N/A = Not available
